

SAKSHI SRIVASTAVA

Internship/Full-Time Job

sakshisrivastava200306@gmail.com | 9026419917 | Vadodara ,Gujarat

LeetCode | **GitHub** | **CodeForces** | **CodeChef** | **Portfolio**

EDUCATION

Parul Institute Of Technology

Computer Science Engineering (Specialization- AI) Bachelors

CGPA: 7.58

Vadodara,India

August 2023 - August 2027

EXPERIENCE

CheeseCakeLabs | Backend Developer Intern

VADODARA | May 2025 - August 2025

Cheesecake Labs Backend Intern Developed **8+ REST APIs**, optimized **15+ database queries**, and integrated **5+ third-party APIs**, improving backend performance by **30%**.

SKILLS

Programming Languages: Java, Python, JavaScript

Libraries/Frameworks: Django, Flask, React, Nodejs

Tools / Platforms: Git, AWS, Docker, VSCode, Linux, IntelliJ IDEA

Databases: SQL, MongoDB, Redis, SQLAlchemy, PostgreSQL, Gunicorn, Vercel

PROJECTS / OPEN-SOURCE

Human-Centered AI Interaction System | [Link](#) Python, TensorFlow/PyTorch, OpenCV, NLP, Speech Recognition, Text-to-Speech (TTS), Emotion Detection Models, WebSockets, JavaScript.

Emotion-Aware Avatar solution is a multimodal AI interaction framework that integrates expressive voice generation , emotion recognition , and avatar animation .

The system uses advanced speech models to generate human-like audio and a real-time emotion detection pipeline to interpret user behaviour. The avatar responds visually , enhancing engagement and natural communication .

AI Cyber Attack Detection System Python, Machine Learning, Deep Learning, Random Forest, Autoencoders, Scikit-learn, TensorFlow/PyTorch, Network Traffic Analysis, Data Visualization.

AI Cyber Attack Detection System is a machine learning based security solution designed to detect malicious activities in a computer network. The system analyzes network traffic data to identify unusual patterns and potential intrusions in real time. This project improves network security by enabling faster detection of cyber threats and enhancing overall system protection.

CERTIFICATIONS

- Completion Of Python Course In Multiple Language - **IIT-MADRAS PRAVARTAK GUVI**
- Completion Of DSA in JAVA - **APNA COLLEGE**
- Complete Genarative AI Course with Langchain and Huggingface - **UDEMY**
- AWS Academy Graduate - Cloud Foundations - Training Badge - **Amazon Web Services Training and Certification**

HONORS & AWARDS

- Selected at National Level for SMART INDIA HACKATHON (SIH '24) as Backend Developer, contributing to backend design, database management, and scalable application development..
- 1st Runner-Up at FOOTPRINTS HACKATHON, MSU Vadodara; contributed as Backend Developer and assisted in frontend site mapping and application flow planning..
